

blazewear™

Heated clothing for the 21<sup>st</sup> century

**FASHIONABLY  
TURNING UP THE HEAT**

## THE BLAZEWEAR PHILOSOPHY

Blazewear was created to offer our customers the latest in functional clothing technology, providing warmth and comfort as well as a wide range of health benefits associated with heat treatments.

Our exciting line of technologically advanced garments has been designed for all forms of cold weather activity to help people enjoy work and leisure during the winter months.

Blazewear garments have proven to be very popular among people with disabilities, the elderly and those who suffer from cold related ailments.

Blazewear products incorporate the very latest in carbon based heating technology and lithium batteries to change the focus of winter clothing from heat retention to heat emission. Our clothes are being recognized around the world for their superior quality, comfort and durability. These are the clothes for the 21<sup>st</sup> century.

## HEATED GLOVES AND DELUXE HEATED GLOVES

Stylish gloves with superior carbon polyester heating elements. Provides powerful heating capability up to a maximum temperature of 140°F. Made with Ultra III Tec material. Gloves are waterproof, windproof, and durable. The elastic cuff allows for ventilation. Soft and flexible for mobility and comfortable.

Sizes: S-XL. See sizing guide on back page.

- Uses standard or rechargeable AA batteries (not supplied)
- High capacity lithium batteries sold separately
- On/Off switch allows heating to be turned off
- Heating element located in fingers to provide maximum warmth

## HEATED SOCKS

Socks have a powerful heating element under the ball of the foot. Battery pack sits comfortably in a pocket at the top of the sock. Made with acrylic/wool for warmth, coolmax comfort and lycra for flexibility.

- Uses standard or rechargeable AA batteries (not supplied)
- On/Off switch allows heat to be turned off
- High capacity lithium batteries sold separately
- Machine washable

## HEATED BOOT AND SHOE INSOLES

Easy to cut to size and shape of the foot. Supplied with battery boxes and garters to attach to the bottom of the leg. Fits shoe sizes 3-12.

- Uses standard or rechargeable AA batteries (not supplied)
- On/Off switch allows heat to be turned off
- High capacity lithium batteries sold separately

**Our heated gloves, insoles, socks and scarves can be heated with standard or rechargeable AA batteries. The rechargeable batteries are much more economical. Batteries and chargers can be purchased at most hardware stores.**

**For optimal performance we offer a lithium polymer battery set with charger for the heated gloves, insoles and socks. These technologically advanced batteries offer warming duration and a life span that cannot be met by AA batteries.**

## THE ULTIMATE HEATED HORSE RUG

How much do you love your horse? Designed and developed for top show jumper and UK national coach Di Lampard. Controllable heat from a small lightweight battery. Warms the main muscle areas before exercise. Up to 158°F heat with five setting temperature control allows control. Helps relieve stiffness and soreness.

Waterproof and breathable exterior, designed to be used as an outer rug or as an interior stable rug.

"This is a brilliant innovation and provides a much cheaper, lighter and more versatile alternative to heavy, expensive magnetic rugs". — Di Lampard
